Time for Taxes!

Dear: Client,

Thank you for entrusting your 2015 tax return preparation to Berman and Sons. We look forward to being of service to you again this year. Please refer to the back page when gathering your information for this year.

- ⇒ **Important:** Please call at your earliest convenience to set-up your 2017 tax appointment. Appointments are filled on a first come, first served basis. Please see page 2 for assistance with gathering your 2016 tax information.

What's New?

On December 18, 2015, Congress enacted HR2029 extending several tax provisions through 12/31/16, basically leaving everything the same as 2015 except the penalty for not having qualified health insurance. In addition, the individual mandate portion of the Affordable Care Act became effective for tax year 2014. The Affordable Care Act requires all individuals to maintain medical insurance coverage for the entire year or possibly be subject to additional tax/penalty. Form(s) 1095-A (federal exchange), 1095-B (insurer), and/or 1095-C (employer) are required. See the enclosed worksheet for documentation applying to your circumstances. **If you were not covered for the entire year or you participated in the exchange, there will be an additional charge of \$100 (or more, depending on your circumstances) for the additional required paperwork.**

For those taxpayers eligible to claim the Earned Income Tax Credit or the Additional Child Tax Credit, additional documentation may be required in order to secure the credit. **Refunds for those returns will be delayed until after February 15th.**

Items affecting the majority of our clients are included in those listed below.
